GEBERIT ACTUATOR PLATES

CHOICE IS
IMPORTANT

DESIGN
MEETS
FUNCTION

MAKE IT YOUR OWN

It's not just any bathroom, it's your bathroom. You select the tiles that reflect your style. You refuse to compromise in the selection of the tap for your washbasin. And here you will find just the right actuator plate for the WC to give your bathroom the crowning touch and pamper you with comfort functions. Because Geberit combines visual elegance with innovative functions.

WHY NOT TRY OUT YOUR OWN DESIGNS?

We have included actual-size illustrations of various actuator plates in the brochure for you. Fold back the left-hand side of the brochure, hold the design up to the wall and let your imagination run wild! Use these actual-size samples to select the actuator plate that appeals to you.

YOUR BATHROOM YOUR DESIGN

Select the actuator plate that appeals to you.

GEBERIT FUNCTIONS **82**

Choice is important.

PRECIOUS METALS

Selecting the right design options for a bathroom means ensuring that individual nuances are perfectly coordinated. Actuator plates in new, fashionable metal colours are the perfect match for the latest trends in taps, while plates made of glass, concrete-look solid surface materials or natural Mustang slate and black walnut blend harmoniously into almost any decor style. The ideal combination for your dream bathroom is just waiting for you to discover it.

REDGOLD

With its intense copper tone, red gold exudes a high-quality sense of warmth in bathrooms and makes a strong statement when combined with luxury surfaces in light or dark shades.

GEBERIT SIGMA21

The red gold flush actuation borders for small and large flush volumes emphasise the refined look of the base material used for the actuator plate.

BLACKCHROME

The subtle elegance of black chrome is the perfect complement to the dark colours and sharp contrasts between dark and light featured in today's bathroom trends.

GEBERIT SIGMA21

Whether they use a contrasting or tone-in-tone effect, the delicate, black chrome borders around the buttons add a distinct graphical element to the actuator plate.

BRASS

The classic golden tone of brass is experiencing a true renaissance and adds a touch of glamour to any bathroom.

GEBERIT SIGMA21

The warm, gleaming tone that brass exudes in these borders vividly accentuates the actuation buttons.

CHROME

This classic choice of metal for the bathroom reveals a completely new side when glossy and matt brushed elements are paired with on-trend plate materials.

GEBERIT SIGMA21

Set in a concrete look for a loft effect or in a natural walnut surface, chrome borders make a real statement. Sigma21 plates with chrome borders are also available in other colours and with other surfaces.

BLACK ON BLACK

Black is beautiful – and this fashionable interior design colour is now popular in the bathroom too.

Geberit's unadulterated interpretation features a stimulating interplay of glossy and matt elements.

WHITE ON WHITE

Refined matt and glossy surfaces reveal a different side to this classic choice for bathrooms. Design rings and stripes maintain a tone-in-tone look and create subtle accents.

GEBERIT SIGMA20

Set on a glossy or matt surface, these button borders liven up the classic basic colours of black and white. The matt-coated areas feature surfaces that are easy to clean.

AESTHETICS AND FUNCTION

Unobtrusive yet reliable. Geberit ensures, supreme convenience and durability, all from behind the wall. All that remains visible is the interface with the technology: the actuator plate. The selection of actuator plates is important because you will live with your selection for years. Choose the actuator plate that best suits you and your bathroom from a wide range of options.

New ideas and functions can always be derived from a rectangular shape. This is how Geberit enables you to come up with a contemporary, personalised bathroom design.

GEBERIT SIGMA30 STOP-AND-GO FLUSH

- Water-saving stop-and-go flush.
- Made of durable die-cast zinc.
- Large actuator button for flush actuation.
- Also available as an actuator plate for urinals.
- Suitable for optional Geberit DuoFresh module (see page 86).
- Selected colour options with surface coating (easy-to-clean*).

NO-TOUCH FLUSH

Electronic hygiene. Recent surveys have revealed that fewer and fewer bathroom users are happy to actuate the flushing process manually – instead, they are increasingly looking for sanitary technology that features touchless operation. By offering electronic WC flush actuators using IR sensors, Geberit has a solution to meet this growing demand. And while it requires your toilet to have an electrical connection, this is a feature that is fast becoming the norm anyway.

GEBERIT SIGMA80

- Water-saving dual flush actuation.
- Touchless flush actuation.
- Surface made of high-quality glass.
- Durable LED lighting in five colours.
- Sensor-controlled switch-on function.
- Multiple award-winning design.

THE PERFECT SHAPE: THE CIRCLE

Aesthetic curves for a relaxing bathroom experience. It is impossible to improve on circles; they can only be restaged and rearranged. Geberit actuator plates use new interpretations of round forms to adapt to today's trends. With or without rims. With finely honed edges. Harmoniously adjacent or flowing one into another. And the result is always well rounded.

GEBERIT SIGMA01

- Water-saving dual flush actuation.
- Also available as an actuator plate for urinals.
- Made of high-quality plastic.
- Suitable for optional Geberit DuoFresh module (see page 86).

GEBERIT DESIGN FAMILY

Seamless design. Toilet and urinal flush control actuation featuring a coordinated design: the result is a single design thread running through the whole bathroom. The flush actuations for urinals, which match the actuator plates for toilets, can either be actuated by hand (pneumatic) or via touchless technology (electronic, by means of infrared detection).

GEBERIT CISTERNS SIGMA AND OMEGA FOR ANY APPLICATION

So that everything matches: used in combination with the matching concealed cistern, Geberit actuator plates in the Sigma range cover a wide variety of applications and comfort functions. The Geberit flushing system Omega offers great flexibility and particularly small actuator plates. Both flushing systems offer tool-free final installation and guaranteed spare parts availability for 25 years.

You therefore have a wide selection of both Geberit actuator plates and reliable Geberit installation elements for installation behind the wall. And Geberit actuator plates bear the name of the suitable cistern so that you can be certain that everything will match.

Geberit Sigma concealed cistern

- Construction height 112 cm
- Front actuation
- Barrier-free and height-adjustable models available
- Odour extraction (recirculating air / exhaust air)
- Suitable for Geberit remote flush actuation

Geberit Omega concealed cistern

- Completely flexible with construction heights of 112 cm, 98 cm and 82 cm
- Front actuation
- Additional top actuation with construction heights 82 cm and 98 cm
- Particularly small actuator plates
- Suitable for Geberit remote flush actuation

112 cm

98 cm

82 cm

CHOICE IS IMPORTANT

Intelligent functions from Geberit. If you can start your toilet flush without touching it, if elegant colour effects add atmospheric moments to the time you spend in your bathroom, or if unpleasant smells are efficiently extracted even before anyone notices them, then this means your plumber has installed state-of-the-art Geberit sanitary convenience in your new bathroom. And because durability and reliability are as much a part of Geberit as good design, you will enjoy your selection for years to come.

GEBERIT REMOTE FLUSH ACTUATIONS MORE CONVENIENT BY FAR

The optimal solution. Regardless of the construction situation, using a remote flush actuation can be a the right choice. For instance, in order to locate the flush actuation at a different location, if the design for the WC flush control calls for small but elegant, or if using a Geberit Omega concealed cistern with low construction height causes forceful contact between the WC lid and the front actuation. For such cases, Geberit offers various remote flush actuators with pneumatic force transmission, which can be placed anywhere within a 1.70 m radius of the concealed cistern.

TOUCHED A THOUSAND TIMES
The pneumatics of the Geberit remote flush actuators type 01 and type 10 have been tested for years of stress. The technology is based on air pressure (not on electrical current).

←
QUITE DISCREET IN FACT
Available as they are in a variety of colours and product materials, the Geberit cover plates open up new design opportunities. A tile-bearing version is available for a particularly discreet appearance.

FRESH AIR FOR EVERYONE

Unpleasant odours in the toilet are a thing of the past. What is long since standard over every kitchen stove can now be applied in the bathroom. An effective way to get rid of unpleasant odours. The Geberit DuoFresh module removes the bad air directly from the WC ceramic appliance, purifies it using a ceramic honeycomb filter and then returns it to the room. This is extremely effective, as it prevents unpleasant odours from spreading throughout the bathroom in the first place, rendering air fresheners, lighting matches, opening windows and the like completely unnecessary. Thanks to a proximity sensor, the odour extraction always switches on automatically as soon as someone sits down on the toilet. The odour extraction is therefore also a great idea for guest WCs. Benefit from additional comfort thanks to an LED orientation light. The Geberit DuoFresh module can be easily installed in any Geberit Sigma cistern and can be combined with almost any actuator plate from the Sigma range.

TOUCHLESS FUNCTION

AESTHETICALLY HYGIENIC

→ TOUCHLESS

You're looking for hygiene and freshness without compromise. We offer flush actuations that fulfil your need without a touch. Without pressing a button and therefore always hygienically.

Touchless actuator plates for WCs and urinals are available in suitably matched designs.

TODAY'S TOILETS ARE MOVING WITH THE TIMES

Electrical connections now come as standard. After all, you expect your bathroom to reflect your changing needs as well as the lifestyle trends that the future is likely to bring. In Geberit WC installation elements, you'll find everything completely prepared for the future – so it can accommodate any changes you want to make in the future, like retrofitting a Geberit AquaClean shower toilet, a convenient odour extraction unit or installing the coloured LED strips that come with the touchless Geberit actuator plate Sigma80.

1 Geberit DuoFresh module with integrated orientation light. Suitable for several actuator plates of the Sigma series. **2** Touchless Geberit actuator plate Sigma80, glass reflective. **3** The Geberit AquaClean Mera shower toilet with outstanding design and numerous comfort features.
